

# BLACK CHILD LEGACY CAMPAIGN

## COMMUNITY INCUBATOR LEAD DATA PROFILE

# Crime & Safety FY2021 update

Crime and violence negatively impact communities by reducing productivity, decreasing property values, and disrupting social and emotional health and general well-being. This data profile highlights crime and safety data between July 1, 2021, and June 30, 2022 (FY2021), compared to July 1, 2016 - June 30, 2017 (FY 2016). Indicators include: Crime Statistics, Firearm Assaults, Arrests, Justice-Involved Youth, and Gang Activity. Community partners from the Sacramento County Sheriff's Department (SSD), the City of Sacramento Police Department (PD) and the Sacramento County Probation Department provided the data summarized herein.

*Data presented in this report was produced for informational purposes only and is limited by the information available and/or collected at the time the statistics were generated. This information is not a replacement for official Uniform Crime Reporting (UCR) statistics, which are based on national reporting specifications and not reflected in the information provided herein.*

## **A NOTE ON METHODOLOGY**

For each indicator, this report provides the definition, data source, dates for which it is reported, and a note why this indicator matters.

- To establish rates, indicators are normalized by population. Normalizing reflects concentration of crime relative to population, and allows for comparison across geographic areas. Five-year census population estimates were used to establish rates.
- Percent change noted throughout this report reflects change from baseline year (FY2016) to FY2021. Rates in the charts were rounded to a single decimal point, but calculation for changes use the full rate, which may include up to the one thousand decimal point. Therefore, rates calculate using a single decimal may vary.
- Disproportionality between rates for the African American population and all others is calculated by dividing the African American rate by the rate for all others.
- Data for FY2018 FY2019, FY2020 is included in the Appendices. Data for FY2017 is not included in this report, unless otherwise noted.

Some BCLC communities are served by both SSD and City PD, with community boundaries not aligning with law enforcement boundaries. To address this, most data from SSD and City PD are combined for neighborhoods unless otherwise noted.

# Jurisdictional Boundaries

## Why This Matters to the Black Child Legacy Campaign

Different law enforcement agencies protect and serve different neighborhoods.

A law enforcement jurisdiction is a geographic area that law enforcement officers are sworn to protect and serve. The Black Child Legacy Campaign (BCLC) neighborhood zip code boundaries intersect with both the Sacramento County Sheriff's Department (SSD) and the City of Sacramento Police Department (City PD) to varying degrees. As shown in the map of Sacramento County below, some BCLC neighborhoods are served by City PD alone, by both City PD and SSD, or by SSD alone.

The data presented in this report display totals for SSD and City PD jurisdictions combined, SSD alone, City PD alone, the BCLC Focus Area, and individual BCLC neighborhoods. At the BCLC level, SSD and City PD data are aggregated. Totals for individual neighborhoods may or may not include SSD or City PD data, based on jurisdictional boundary.

## BCLC Neighborhood Zip Codes

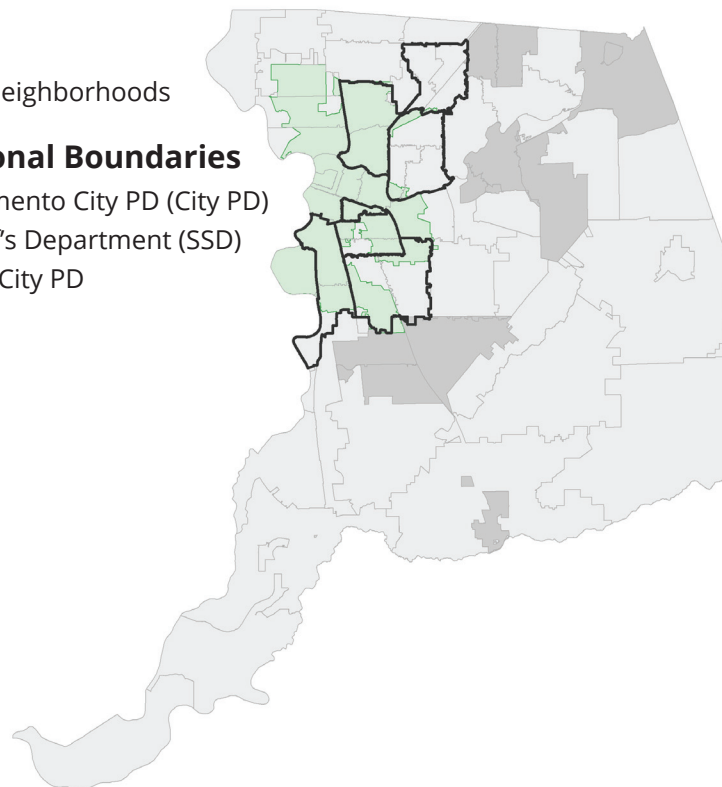

|                                   |                     |

# Crime Statistics | Overall Crime

## Why This Matters to the BCLC

Victims of violent and other crimes experience trauma that compromise psychological as well as physical wellbeing. Residents of communities with high crime rates are also affected, becoming more fearful and experiencing high levels of stress. Communities experiencing high rates of crime are affected economically, with decreased business activity and lower property values.

## Overall Crime Rate

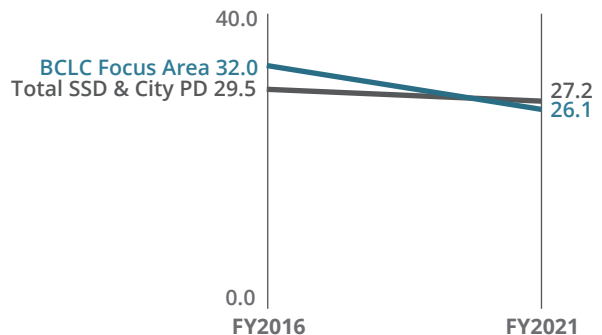

Measures the overall rate of crime in an area.

## Definition

The overall crime rate captures the aggregate number of SSD and City PD reported incidents of homicide, rape, arson, robbery, burglary, larceny, shootings, and stolen vehicles per 1,000 residents who live in an area. Both victims of the offense and officer's viewing of an offense generate crime reports. Reported incidents are used instead of arrests since some crimes reported do not result in an arrest. Arrests are tracked separately. See Appendix A for FY2018 - FY2020 data.

## Overall Crime Rate (per 1,000 residents)

Between FY2016-FY2021, the Overall Crime rate in the **BCLC Focus Area decreased by 18%.**

## Overall Crime

| Area                              | FY2016 |      | FY2021 |      | FY2016-21 |
|-----------------------------------|--------|------|--------|------|-----------|
|                                   | #      | Rate | #      | Rate | % change  |
| Total SSD & City PD               | 30,998 | 29.5 | 30,662 | 27.2 | -8%       |
| SSD                               | 14,279 | 25.0 | 12,184 | 20.1 | -20%      |
| City PD                           | 16,719 | 34.8 | 18,478 | 35.6 | 2%        |

# Crime Statistics | Violent Crime

## Violent Crime Rate

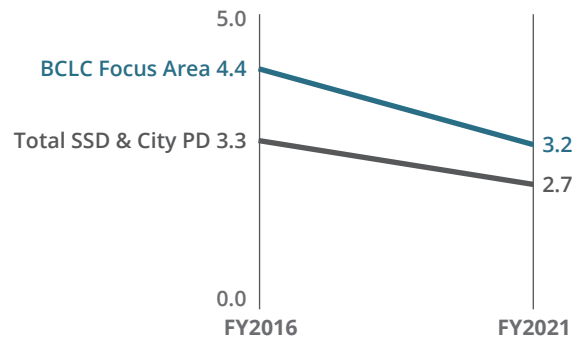

A subset of overall crime, measures the rate of violent crime in an area.

## Definition

The violent crime rate captures the aggregate number of SSD and City PD reported incidents of overall crime identified as being violent (homicide, rape, robbery, and shootings) per 1,000 residents who live in an area. See Appendix B for FY2018 - FY2020 data.

## Violent Crime Rate (per 1,000 residents)

Between FY2016-FY2021, the Violent Crime rate in the **BCLC Focus Area decreased by 28%.**

## Violent Crime

# Crime Statistics | Property Crime

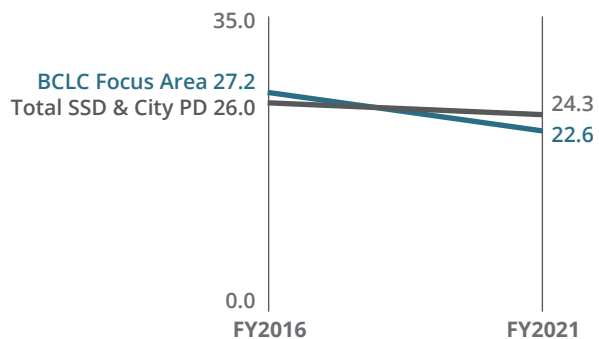

## Property Crime Rate

A subset of overall crime, measures the rate of personal property crime in an area.

## Definition

The property crime rate captures the aggregate number of SSD and City PD reported incidents of overall crime identified as being property-based (burglary, stolen vehicles, and larceny) per 1,000 residents who live in an area. See Appendix C for FY2018 - FY2020 data.

**Property Crime Rate** (per 1,000 residents)  
Between FY2016-FY2021, the Property Crime rate in **BCLC Focus Area decreased by 17%.**

## Property Crime

# Crime Statistics | Specific Crimes

## Specific Crimes

Measures the rate of specific crimes in an area.

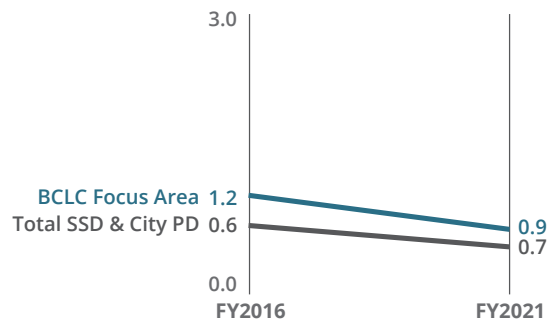

### Definition

The aggregate number of SSD and City PD reported incidents of specific crimes per 1,000 residents who live in an area. Select crimes are used to measure overall crime, and its subsets (violent crime and personal property crime). The graphs display changes over time in rates of firearm assaults, weapon possession, and weapon possession-firearm only (a subset of weapon possession). See Appendix D for tables displaying rates for these and other specific crimes.

*\*Note: Previous reports displayed "Shootings" data, with crime codes varying in some years. This report displays "Firearms Assault" data which includes the crime codes listed on the following page.*

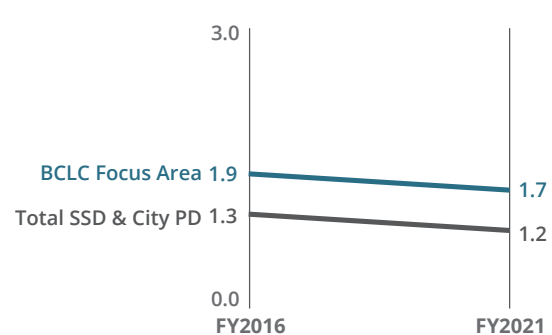

### Firearm Assaults\* (per 1,000 residents)

Between FY2016-FY2021, the Firearm Assault rate in the **BCLC Focus Area decreased by 19%.**

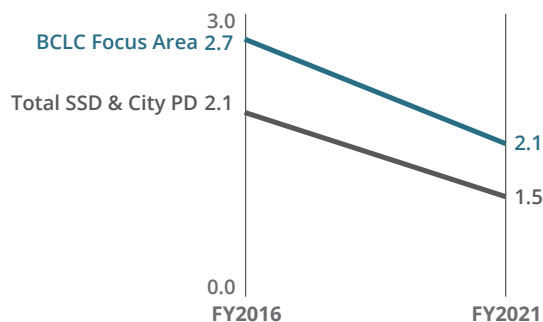

### Weapon Possession (per 1,000 residents)

Between FY2016-FY2021, the Weapon Possession rate in the **BCLC Focus Area decreased by 25%.**

### Weapon Possession-Firearm Only (per 1,000 residents)

Between FY2016-FY2021, the Firearm Only rate in the **BCLC Focus Area decreased by 8%.**

# Firearm Assaults | Mapping Sacramento County

## Why This Matters to the BCLC

Youth and young adults are more likely than persons of other ages to be murdered with a gun.

## Firearm Assaults

Measures the number of firearm assaults in an area.

## Definition

The aggregate number of SSD and City PD reported incidents of firearm assaults using the four firearm assault crime codes outlined below per 1,000 residents who live in an area. These crime codes are among the top offenses typically associated with gang violence. See Appendix D for FY2018-FY2020 data.

## Firearm Assault Crime Codes

245 (A)(2) PC: Assault with a firearm

245 (B) PC: Assault with a semiautomatic firearm

246 PC: Shooting at an inhabited/occupied building, dwelling, and/or vehicle

247 (B) PC: Shooting at an uninhabited/unoccupied building, dwelling, and/or vehicle

\*Decrease in firearm assault rate for BCLC focus area is calculated using the full rate, despite rounded rates showing no change. Actual decrease was approximately 0.01.

# Firearm Assaults | Year Over Year Breakdown

## Firearm Assaults

Despite an increase in FY2020, firearm assaults have decreased in most BCLC neighborhoods from baseline year (FY2016), which is notated by the colored area in the graphs below. FY2017 data is not included in this report and therefore is represented with a dashed line. See Appendix D for data tables.

Research shows that the COVID-19 pandemic was associated with a temporary 15% increase in firearm-related incidents across the country, which occurred during FY2020.<sup>1</sup>

<sup>1</sup> Sun S., Cao W., Ge Y., Siegel M., Wellenius G.A. Analysis of Firearm Violence During the COVID-19 Pandemic in the US. JAMA Netw Open. 2022 Apr 1;5(4). doi: 10.1001/jamanetworkopen.2022.9393.

# Gang Activity | Gang-Related Crime

## Why This Matters to the BCLC

Gang activity affects all those who are exposed to the violence they perpetrate in the community. When young people feel unsafe, it can negatively affect their health and educational performance. Gang activity creates fear in communities, which in turn affects community cohesion, public health, and the economic wellbeing of a neighborhood.

## Gang-Related Crime

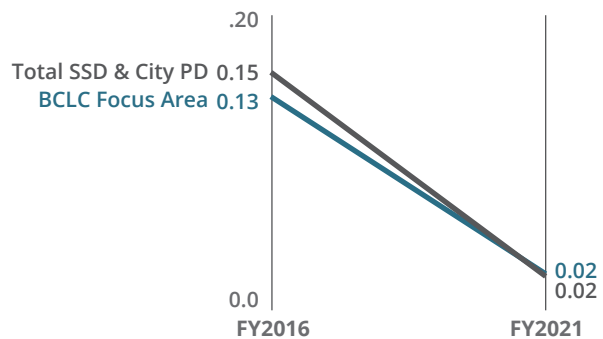

Measures the rate of 186.22 crime for all individuals in an area.

## Definition

The 186.22 crime rate captures the aggregate number of SSD and City PD reported incidents of crime with a street gang sentencing enhancement per 1,000 residents who live in an area. 186.22 crime makes it illegal to participate in a street gang and assist in any felony criminal conduct by the gang's members. Additionally, the law provides that anyone who commits a felony for the benefit of a gang will receive a mandatory prison sentence. See Appendix E for FY2018 - FY2020 data.

## 186.22 Crime Rate (per 1,000 residents)

Between FY2016-FY2021, the 186.22 Crime rate in the **BCLC Focus Area decreased by 84%.**

## 186.22 Crime

# Arrests | Overall Arrest Rate

## Why This Matters to the BCLC

Arrest records, even if they do not lead to conviction, can have a lasting effect on employment opportunities for the person arrested, which affects not only their own economic wellbeing, but also that of their families. Employment is also linked to the avoidance of future involvement with law enforcement.

## Arrest Rate

Measures the rate of arrests for all individuals in an area.

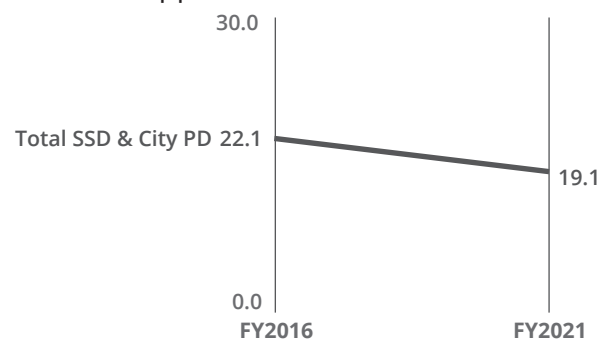

## Definition

The arrest rate is the aggregate number of SSD and City PD reported persons of any age arrested per 1,000 residents who live in an area. Due to differences in data calculation between the SSD and City PD, combined arrest rates per BCLC focus areas was not calculated. Separate tables for SSD and City PD arrest rates per focus area are provided in Appendix F, along with FY2018 - FY2020 data.

Arrest Rate (per 1,000 residents)

## Arrest Rate (per 1,000 residents)

Between FY2016-FY2021, the **Arrest rate for SSD and City PD decreased by 14%**. Similar decreases in arrest rates were reported by SSD and City PD in BCLC communities, as noted in Appendix F.

## Arrests

| Area                | FY2016 |      | FY2021 |      | FY2016-21 |
|---------------------|--------|------|--------|------|-----------|
|                     | #      | Rate | #      | Rate | % change  |
| Total SSD & City PD | 23,296 | 22.1 | 21,499 | 19.1 | -14%      |
| SSD                 | 8,701  | 15.2 | 8,266  | 13.6 | -11%      |
| City PD             | 14,595 | 30.4 | 13,233 | 25.5 | -16%      |

Note: Green highlight indicates a decrease in rate from FY2016.

# Arrests | Juvenile Arrest Rate

## Why This Matters to the BCLC

Arrest records, even if they do not lead to conviction, can have a lasting effect on the employment opportunities for the juvenile arrested, which affects not only their own economic wellbeing but also that of their families. Employment is also linked to the avoidance of future involvement with law enforcement.

## Juvenile Arrest Rate

A subset of arrests for all individuals, measures the rate of arrests for juveniles in an area.

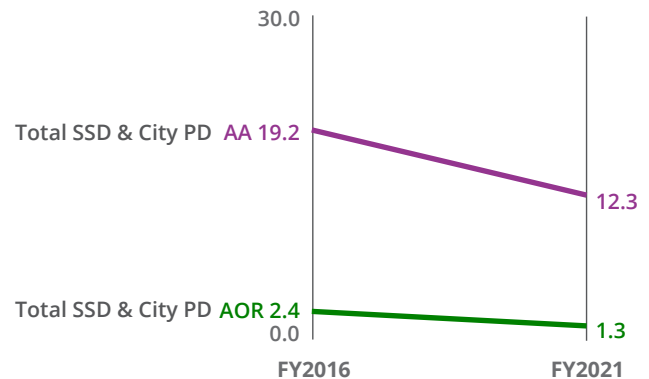

### Definition

The juvenile arrest rate is the aggregate number of SSD and City PD reported persons aged 0-17 arrested per 1,000 youth 0-17 years-old who live in an area by race (African American – AA, All Other Races – AOR). Due to differences in data calculation between the SSD and City PD, combined arrest rates per BCLC focus areas was not calculated. Separate tables for SSD and City PD juvenile arrest rates per focus area are provided in Appendix G., along with FY 2018 - FY 2020 data.

## Juvenile Arrest Rate

(per 1,000 residents ages 0-17)

Between FY2016-FY2021, the **African American Juvenile Arrest rate for SSD and City PD decreased by 36%**. However, it is still 9.6 times higher than the rate for all other races. Similar decreases in arrest rates were reported by SSD and City PD in BCLC communities, as noted in Appendix G.

## Juvenile Arrests

# Justice-Involved Youth | Youth on Probation

## Why This Matters to the BCLC

Youth who have contact with the juvenile justice system are at increased risk for negative long-term outcomes, such as substance use and abuse, dropping out of school, injury, and early pregnancy.

## Youth on Probation

Measures the rate of youth on probation in an area.

### Definition

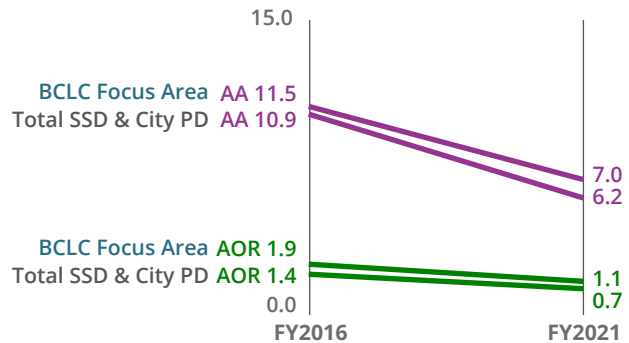

Youth on probation is the number of youth under the juvenile jurisdiction of Probation aged 0-21 per 1,000 youth who live in an area by race (African American – AA, All Other Races – AOR), at a unique point in time (June 1). Rates are calculated using the Census age range of 0-24. See Appendix H for FY2018 - FY2020 data.

### Disclaimer

The zip code data may or may not reflect where the youth currently resides: the zip code may represent a group home, the youth may be transient, or various other factors. The zip code data listed is the zip code provided to probation for the youths during the specific snapshots.

## Youth on Probation Rate (per 1,000 residents ages 0-24)

Between FY2016-FY2021, the **African American Youth on Probation rate in the BCLC Focus Area decreased by 43%**. However, it is still 8.6 times higher than the rate for all other races.

## Youth on Probation

# Justice-Involved Youth | Juvenile Wards within CIL Neighborhoods

## Definition

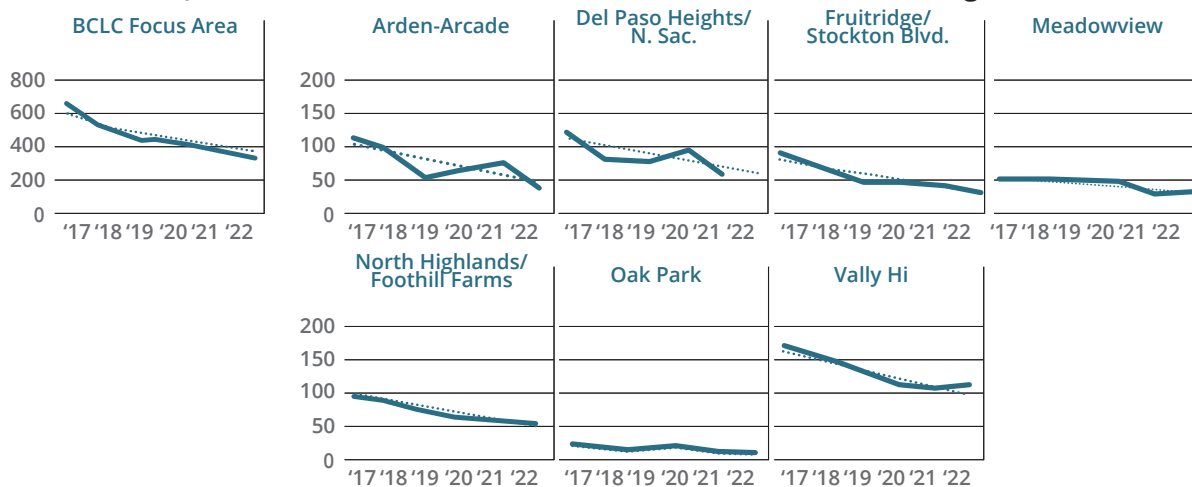

Juvenile wards within CIL neighborhoods is the total number of County Probation-reported youth aged 0-21 under supervised jurisdiction of Probation who live in an area at a unique point in time (June 1). See Appendix I for FY2018 and FY2019 data.

## Disclaimer

The zip code data may or may not reflect where the youth currently resides: the zip code may represent a group home, the youth may be transient, or various other factors. The zip code data presented is the zip code provided to probation for the youths during the specific snapshots.

## Count of Juvenile Wards within CIL Neighborhoods | Five-Year Trend

The count of Juvenile Wards in the BCLC Focus Area has been decreasing since 2017 (end of FY2016).

Count of Juvenile Wards

| Area                              | 6/1/17     | 6/1/22     | 2017-21 % change |

# Justice-Involved Youth | Top Five Offenses for Detained Youth

## Youth on Probation

Measures the top five offenses for detained youth.

## Definition

These are the top five County Probation reported offenses (pre-conviction) for which youth aged 0-17 are admitted for secure detention per 1,000 youth 0-17 years-old by offense and race (African American – AA, All Other Races – AOR) in Sacramento County only, ranked highest to lowest. The top 5 offenses measure the most prevalent criminal and delinquent behavior by youth. See Appendix J for FY2018 - FY2020 data.

# Appendix G: Juvenile Arrests Tables

Due to differences in how arrest data is collected, arrest rates from SSD and City PD was not combined for BCLC focus areas. City PD data reflects arrest data based on the location of the arrest. SSD data reflects arrest data based on the location of the location of the crime associated with the arrest.
